If you are searching for **cash for gold jewellery near me** or a **cash for gold jewellery store**, it is important to understand the factors that may affect the value of your items.

The value of gold jewellery can depend on its purity, weight and the current gold market price. Hallmarks or fineness marks may help identify the purity of your jewellery.

Before selling, consider whether your jewellery contains diamonds or other gemstones. These may have value beyond the gold content. Antique or collectible jewellery may also require additional consideration.

When choosing where to sell your jewellery, look for a reputable business and understand how the assessment process works.

Researching your gold jewellery and understanding its characteristics can help you make a more informed decision.
